Vision and Mission of the Institute

Vision: To be a leading institution in scientific education, empowering students to become innovative problem-solvers and contributing to the advancement of society.

Mission: Our mission is to provide a cutting-edge scientific education to rural and urban students equally so that they align with the principles and objectives of the new education policy 2020. We aim to promote interdisciplinary learning and offer a flexible and modular curriculum that empowers students to design their own learning paths. We strive to foster creativity, innovation, among our students by providing them with opportunities to engage in research, internships, and experiential learning.
